Merton School Fair Was Big Success Despite Storms

Overcoming the serious difficulties imposed by the dry weather during the summer, the children competing in the Merton School Fair put a splendid display of garden products, grains and forage. Bad weather on the day set for the fair forced a postponement, and the weather on the final day was cold and windy but it did not dampen the enthusiasm of the young people and the fair was well attended. Probably no previous fair was so interesting and instructive. Much satisfaction was expressed for work of the judges, and a total of over sixteen hundred exhibits kept the six judges quite busy.

A great deal of interest was added to the fair by the short addresses given by the judges, explaining the why and wherefore of their judgements. This was much appreciated, particularly in the case of vegetables and grains.

Mrs Deachman, who judged the cooking, is an expert in poultry-raising and very kindly took over the judging of that line also, besides giving a splendid lecture on raising and selecting poultry.

Probably the keenest interest was taken in the work of Mr. Newcomb, live stock judge; and in the inter-school stock judging competition.

NEIGHBOURS QUICK WITH TIMELY AID

The barn on a farm twelve miles north of Provost was destroyed by fire at six o'clock in the morning of Friday October 10th. Before nightfall a new barn stood in the place of the old structure, thanks to the efforts of the neighbours of Alton Austin.

The fire took place on the farm rented by Mr. Austin. In addition to the barn, seven head of horses, one cow and 600 bushels of oats were destroyed. Mr. Austin is at present in hospital with broken ribs sustained in an accident two weeks ago. When the neighbours heard of the occurrence they immediately gathered and built the new barn.

Accidental Death Of Miss Elsie Ferguson

A deep gloom was cast over the district early Monday when the news of the death of Miss Elsie Ferguson became known.

Miss Elsie Ferguson, one of the most popular young ladies of the district met her untimely death whilst out riding after cattle with her brother James Ferguson.

She was thrown from her horse and her brother found her lying unconscious on the ground. It happened so suddenly that there was no means of telling what had caused the disaster.

Miss Ferguson was taken to Bill Swan's home the nearest residence, and thence to her home. Dr. H. G. Folkins having been summoned.

It was found necessary to take her to the Saskatoon hospital by the early train on Friday.

Accompanying her on this journey were Mrs. Alex Taylor (her sister) Mr. James Ferguson (her brother) and Mr. Clive Halliwell.

On arrival at the hospital Miss Ferguson was still unconscious, and suffering from concussion of the brain but hopes were held out for her recovery. The news of her death on Sunday therefore came as a severe blow.

Very great sympathy is felt by all for Mr. A. Ferguson, the bereaved father and for the remaining members of the family. For they have suffered heavily in the recent past. It is not long since the death of Mrs. Ferguson and in the meanwhile M. Ferguson himself has suffered considerably, having to undergo hospital treatment.

Funeral Notice

The funeral of Miss Elsie Ferguson will be held at 1 o'clock Thursday, October 23rd. The service will be held at the home, after which the cortege will wend its way to the Chauvin cemetery where interment will take place.

Death Of Baby Gagnon

The small son of Mr. Gagnon, one year and six months old was taken with convulsions on Wednesday last, and died suddenly on Thursday. His death came as a shock to his parents, for apart from the convulsions, he was in apparently good health.

The funeral took place on Friday last, service being held in the Sacred Heart Church, conducted by Father Huet. A large number of friends and relatives attended at the church and graveside to express their sympathy for the sorrowing parents and family.

A solemn requiem mass for the repose of the soul of the late Charles Gagnon, who died September 11th 1924, will be held in the Sacred Heart Church on Friday, October 24th.

School Books and School Supplies are already in, all ready for the big opening. Scribblers and Exercise books are down to 3c each. We sell 8 for 25c—which means a big saving. Other lines have also been hammered down considerably. Chauvin Pharmacy

(Continued from last Column) on the C.P.R. right of way.

A number of bills were passed for payment.

Moved that we do now adjourn Carried The next meeting will be on the 12th day of November 1924

Wedding Bells

COTE—SIMARD

The marriage of Miss Yvonne Simard to Mr. Alfred Cote took place at the Sacred Heart church on Monday at 10.00 o'clock a.m. Father Huet officiating.

After the ceremony the bridal party repaired to the home of Mrs. Larouche, the bride's aunt, was served to a large number of relatives and friends. On Monday evening Mr. and Mrs. Simard the bride's parents, served dinner at their home in honor of the bride and bridegroom. A dance completed the festivities. Mr. and Mrs. Cote will leave on Wednesday to visit relatives at Bassano, after which they will proceed to Eastern Canada where they will make their home.

Accident To Geo. Reynolds

George Reynolds, Chauvin's popular auctioneer, met with an accident Tuesday morning. He was helping to move a separator and one of the tugs broke. The whiffle-tree swinging back suddenly struck Reynolds across the jaw with terrific force, breaking the jaw and knocking out a number of teeth. After receiving treatment from Dr. Ternan, Reynolds left on the noon train for Saskatoon hospital.

"The Cheat" to be shown at the movies in Chauvin and Edgerton next week, was written by Hector Turnbull. Its tremendous popularity resulted in its adaptation to the stage, its elaboration into novels in both French and English, the latter by Russell Holman, and its French presentation as an opera. It is the only story written originally for the screen to enjoy this popularity.

The Radio Season Has Now Arrived

1924 Prices Are Considerably Lower

Reliable Westinghouse Sets. from \$40.00 up. All capble of bringing in Eastern States Stations.

The **RADIOLA IIIA** in a new, high grade regenerative receiving set, using four WD-11 tubes, arranged as a detector with two stage audio frequency amplifier, the second stage using two tubes in the balanced, or push-pull, circuit. The apparatus is mounted on an attractive panel of durable material and is enclosed in a solid mahogany case. A flexible cable is provided at the rear so that batteries may be placed in a convenient postion. This set should prove to be one of the most suitable for both rural and town fans as it operates entirely from dry cells and will operate a loud speaker quite efficiently on Canadian and States stations, often bringing in stations such as Pittsburg, Penn., and Schenectady, N.Y. so they can be heard oll over the room. **RADIOLA III-A** complete with tubes, phones, batteries and \$88.50 aerial equipment. Price delivered

RADIOLA IIII the same set as Radiola III-A except that it is t two tube outfit, the balanced amplifier being omitted. This set is more economical than the Radiola III-A and where a loudspeaker is not desired, this is the ideal set to bring in both near and distant stations. **RADIOLA III** fully equipped with tubes batteries, phones and \$51.00 aerial equipment. Price delivered
The above set may be added to at any time by buying tha-Radiola Balanced Amplifier. By adding this you make it as powerful as Radiolo III-A

I still offer the Westinghouse sets offered last year at greatly reduced prices. Before sending away for parts of sets call in and ask or price. In mot cases my price is no higher and in many cases you will save by ordering your goods from me. I am in a position to supply you with anything from a single part to hte complete parts to build an eight tube super-hetrodyne.

HERE'S A BARGAIN: To those who are willing to spend a few hours put-ting together a real good radio outfit that is hard to beat for results and simplicity of operation. We recommend the following set of parts, all of guaranteed quality and selected by able radio men. Complete instructions for connecting this set are given witheach outfit. **158 OUTFIT** complete with parts, tube, phones, batteries, panel \$23.85 and instructions, including booklet "How To Tune"

If you contemplating building or buying a set, call in next time you are in town.

Editorial Comment

We notice in one of our Alberta contemporaries remarks calling attention of parents and guardians to the growing habit of children doing "dares" before approaching automobiles. There is something within most of us that seeks adventure and thrills, but the front of an approaching car is no place to satisfy this desire.

Our attention was recently called to an incident of this nature in Chauvin. In this incident it was only by the most narrow margin that one venturesome child escaped serious injury, the driver being a local man and himself the father of several

children. Had the child tried this same "dare" in front of one of the "speed hogs" that from time to time traverse our streets the results would have been tragic.

ALBERTA CAN PROGRESS

W. J. Blair Suggestions

"This talk of lack of understanding and sympathy for the west, among people of the east, is all wrong, in my opinion," declared W. J. Blair, ex-M.P., Alberta Conservative leader, returning from his old home in Eastern Canada where he was

called as a result of family bereavement caused by a serious motor accident.

"Almost everybody I met back east has relatives of some sort in Alberta," declared Mr. Blair. "The interest of these people is bound by ties stronger than the meretricious of trade and commerce—there is the tie of family relationship which is strongest of all.

Nevertheless, Mr. Blair considers Alberta must face her own problems, and must look for no outside help. "There is little use in trying to deceive ourselves," said Mr. Blair. "Alberta made its own load and must carry it alone. The manhood of Alberta is as virile as it is anywhere on earth, and Albertans can carry their own load once they set their mind to it."

There is one thing Mr. Blair considers Alberta should do, to make progress possible. It must remove restrictive measures that are at present hampering investment of money in this province, and it must remove confiscatory measures against property, else Alberta as an investment possibility will be shunned for years to come.

Experimental legislation such as the old cow bill of famous memory, which Mr. Blair says has cost the province \$1,400,000, and has lost the farmers 3,000 homesteads must be forgotten also, and a return made to sound principles of government based on business sense.

Municipal muddling also should cease, in Mr. Blair's opinion. There is no need for a minister of municipal affairs, a deputy, and a whole lot of officials, says Mr. Blair. Ontario, with ten times more municipalities than has Alberta, has neither minister nor deputy minister of municipal affairs, but manages its municipal business soundly, on lines developed by over a hundred years experience.

Alberta, declares Mr. Blair, might well profit by the experience of Ontario in such matters as this ..

IS YOUNGEST OFFICIAL OF CANADIAN PACIFIC

LEO SOLLOWAY

Leo Solloway, recently appointed Asiatic Freight Agent of the Canadian Pacific Railway with office at Montreal and supervision over Oriental and Australasian traffic via Pacific Ports.

Born in Vancouver in 1895, Mr. Solloway has the distinction now of being the youngest official in Canadian Pacific service, a distinction which he has won through fourteen years' service in the freight department of the Company. He commenced work as stenographer in the steamship department of the General Freight office in Vancouver in 1910, and remained in that department until 1915 when he enlisted for active service with the 72nd Highlanders. He returned from overseas in the Fall of 1917 and was attached to the steamship export department in Vancouver until 1918 when he was loaned to the British Ministry of Shipping, acting as assistant to the agent of the Ministry at the Pacific port.

In June 1919, Mr. Solloway went to Montreal as chief clerk to the Asiatic Freight Agent. Two years later he was appointed chief clerk to the General Foreign Freight Agent, and last May appointed as Acting Asiatic Freight Agent which office has been confirmed by promulgation.

forestry will be somewhat higher than that of last year. Income from the fisheries will be in the neighborhood of \$60,000,000 in comparison with \$4-2,000,000 last year, assuming the continuation of this year the present rate of increase. Mining output rose 20 per cent. during the first half of the year. A continuation of this rate of increase during the second half, which is indicated, would bring the total for the year close to \$260,000,000. In Hydro-electric development there has been a marginal increase. On the other hand the volume of building as well as that of manufacturing has declined materially during the year. The aggregate of all these various departments totals is \$3,400,000,000 as against \$3,292,768, during 1923.

BOBBED HAIR IS NO NEW FASHION

"Bobbed" hair is so far from being a modern fashion for women that it has just been found in a picture painted over 500 years ago. This discovery has been made in the parish church Wymington. Northamptonshire England, well known for its curious wall pictures, during restoration work. Part of a great picture representing the Resurrection and Judgement has been found. It was hidden under the plaster. When the plaster had been removed it was seen that most of the figures were nude women. Some of them had long hair falling about their shoulders but the artist had given most of them "bobbed hair" cut in the fashion of the present day. The vicar, Rev. C. L. Drew, suggested that the picture is probably as old as the church, which was built in 1380.

IS \$100,000,000 GREATER
FOR THIS YEAR

The Financial Post estimates that the total net revenue from all branches of production in Canada during 1924 will exceed that of 1923 by more than \$100,000,000—assuming the continuation of the present rate of expansion in certain branches of production, and the maintenance of the present level of prices of primary products

The above estimate which is based on output figures in all departments during the current year to date, in comparison with that of previous years takes account of the decline in certain branches of production and the increase in others, as well as the change in price levels.

According to figures compiled by the Bureau of Statistics, farm product netted \$1,253,000,000 last year. The current decline in the yield of the grain crops is more than balanced by the general rise in price levels and the increase in livestock sales, so that, in net increase. The revenue from
